SKILLS

PROGRAMMING :

• Java • C • Python • Javascript
• MongoDB • MySQL • Html • Css

FRAMEWORKS :

• Springboot • Reactjs • Redux • Nodejs • Expressjs • Tailwindcss

TOOLS AND PLATFORMS :

• Firebase • Zoho Catalyst • Vercel • Postman • Github

COURSEWORK

UNDERGRADUATE

• Data structure and Algorithms
• Operating Systems
• Artificial Intelligence and Machine Learning

EXPERIENCE

FRESHER | Skilled in building and developing websites
virudhunagar , TamilNadu

FRONTEND DEVELOPMENT | Reactjs , Tailwindcss

- Built interactive and responsive user interfaces using React.js, Tailwind CSS, and JavaScript.
- Designed and implemented modern UI components, improving user experience and performance.
- Optimized website performance by reducing load times and improving responsiveness.

BACKEND DEVELOPMENT | Nodejs , Expressjs, Springboot

- Created backend services using Node.js, Express.js, and MongoDB to manage data and authentication.
- Designed and implemented REST APIs for seamless communication between frontend and backend.
- Worked with Firebase for authentication and real-time data synchronization.
- Integrated Postman for API testing and validation.

INTERNSHIP - EXPERIENCE | Full Stack Development Intern – Cognifyz Technologies

- Completed project-based tasks that provided hands-on practice in ReactJs, NodeJs, ExpressJs and MongoDB.
- Reinforced previously learned concepts through structured problem-solving and real-world implementation.
- Improved skills in API integration, database operations, and responsive UI development.

PROJECTS

REAL-TIME CHAT APPLICATION | MERN stack
Built a React and Tailwind CSS chat application with WebSocket integration for instant messaging.Implemented JWT token based authentication and a responsive UI for seamless user experience.

BLOOD DONATION APP | MERN stack
Created a full-stack application connecting blood donors and recipients.Designed an intuitive UI with React and handled secure backend operations using Node.js, Express.js, and MongoDB.
