SKILLS

PROGRAMMING :
Java • C • Python • Javascript
Html • Css • MongoDB •

FRAMEWORKS :
Reactjs • Nodejs • Expressjs • REST APIs •Tailwindcss

TOOLS AND PLATFORMS :
Firebase • Zoho Catalyst • Vercel • Postman • Github

COURSEWORK

UNDERGRADUATE

- Data structure and Algorithms
- Object oriented programming
- Fundamentals of Data Science

EXPERIENCE

FRESHER | Skilled in building and developing websites
virudhunagar , TamilNadu

FRONTEND DEVELOPMENT | Reactjs , Tailwindcss

- Built interactive and responsive user interfaces using React.js, Tailwind CSS, and JavaScript.
- Designed and implemented modern UI components, improving user experience and performance.
- Optimized website performance by reducing load times and improving responsiveness.

BACKEND DEVELOPMENT | Nodejs , Expressjs

- Created backend services using Node.js, Express.js, and MongoDB to manage data and authentication.
- Designed and implemented REST APIs for seamless communication between frontend and backend.
- Worked with Firebase for authentication and real-time data synchronization.
- Integrated Postman for API testing and validation.

PASSIONATE LEARNER , TEAM PLAYER | Open Source Contributor & Team Leader

- Enthusiastic about learning new technologies and applying them to real-world projects.
- Continuously exploring Zoho Catalyst, cloud platforms, and automation tools.
- Continuously exploring Zoho Catalyst, cloud platforms, and automation tools.

PROJECTS

CRYPTOPRICE TRACKER | Reactjs
Built a React-based cryptocurrency price tracker using the CoinGecko API.Displayed real-time price updates and market trends with an interactive UI.

REAL-TIME CHAT APPLICATION | MERN stack
Built a React and Tailwind CSS chat application with WebSocket integration for instant messaging.Implemented JWT token based authentication and a responsive UI for seamless user experience.

BLOOD DONATION APP | MERN stack
Created a full-stack application connecting blood donors and recipients.Designed an intuitive UI with React and handled secure backend operations using Node.js, Express.js, and MongoDB.
